Bad dialogue, bad English, bad story, bad music, bad eventing, bad mapping. Actually, the mapping is so bad that the game cannot be continued at a certain point because the creator accidentally blocked all pathways. Oops. I presume this is the work of some 12-year-old who put all his heart into it, so I'm not going to refund and perhaps make him a happy day. But how this ended up on Steam in the first place is beyond me.. Bad dialogue, bad English, bad story, bad music, bad eventing, bad mapping. Actually, the mapping is so bad that the game cannot be continued at a certain point because the creator accidentally blocked all pathways. Oops. I presume this is the work of some 12-year-old who put all his heart into it, so I'm not going to refund and perhaps make him a happy day. But how this ended up on Steam in the first place is beyond me.. Honestly speaking, this game is really GOTY when it comes to the speedrunning community, I think I might be third or fourth in the refund category.. Honestly speaking, this game is really GOTY when it comes to the speedrunning community, I think I might be third or fourth in the refund category.
